Quiz Bowl Team

For the third consecutive year, Statesboro High School has sent a team of four students to compete in the High School Quiz Bowl sponsored by WSAV-TV and the Savannah Jaycees. Tryouts were open to all Juniors and Seniors. Four Senior boys and an alternate, Ben Watkins, were chosen as winners at these tryouts. These students answered the most questions correctly in the given length of time. Don Curry and Jim Wynn were elected to the 1971-1972 All-Star Quiz Bowl Team.

Hi-Owl

The aim of the Hi-Owl staff is to keep the students and citizens of the community informed of school activities by putting out a weekly full-page newspaper. Members gather news from all over the school, type it, make photographs, make up copy sheets, and distribute finished papers each week.

Other activities of the members of the staff are to sell candy and soft drinks at home basketball games. They also produced the annual school literary magazine, "Reflections of Blue and White."

VOT

Vocational Office Training is a co-operative work-training program for high school seniors who are preparing for full-time employment in office occupations. It is, in fact, the "cap-stone" of the business education program where the knowledge, skills, and techniques learned separately are brought together and applied to an actual office job.

THE LEGEND OF SIR LOIN

In days of old, a king gave a feast for his knights of valor. The loin of beef was roasted over an open fire. When the king was served he was so delighted with the taste that without hesitation, this happy king drew his sword and knighted the loin with this proclamation "From henceforth this beef shall be known as Sir Loin!"

Why on earth would they use paper to help launch a moon shot?

The paper is used in this 327-foot Apollo service tower. As honeycomb panel cores. Laminated to aluminum "skins".

The panels form the enclosing wall of the 120-foot-wide tower base. And the huge hinged gates which open and envelop the rocket during servicing.

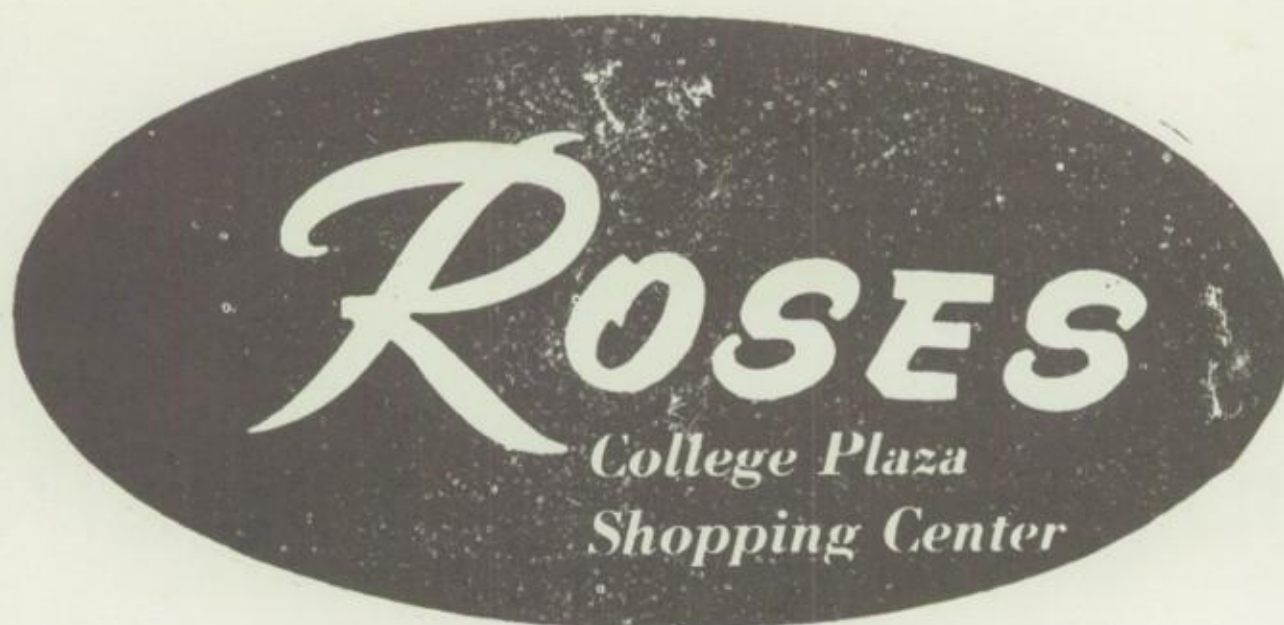

Why paper honeycomb? Because it's incredibly strong. And incredibly light. The giant gates swing easy. And precious pounds are saved in the 32-story structure whose weight

can flatten the railroad wheels below when they are not in motion.

Union Camp honeycomb has hundreds of other uses—in both commercial and residential construction. Everything from floors to walls and to roofs. Even the sky isn't the limit.

The paper for Union Camp's Honeycomb is manufactured at the huge Savannah Complex, the world's largest pulp-to-container plant.

The school term of 1971-72 has come to a close. It has been a memorable year indeed, and hopefully many of these memories have been captured for you.

Many people have made the book possible. I would especially like to thank Doug Currie for the excellent photography . . . Ellen Trapnell, Kathy Bradley, and Carolyn Bitter for their dedication in completing the yearbook . . . and thanks also to the rest of the staff.

It is impossible to express what being editor of the 1972 Criterion has meant to me.

I can only hope that I have shared some of my enjoyment with you.
